20.09.2015

“Dear Gabi Steiner, Dirk Jakobs and Executives of the NfH! We would like to thank you for the wonderful 2015 NfH Event held in Heilbronn/Germany which was a greatly enriching experience for us and certainly for all the participants. The wonderful presentations from Gabi Steiner, Dirk Jakobs and Jörg Löhr, peppered with humour and a lot of wisdom, made that day so lively that it seemed to pass in no time. As promised, Mrs. Steiner, we have attached a few photos of the “Honey House”.

As we mentioned in our previous letter, the prolonged rainy season kept on holding us up and we had to postpone our plans over and over again. Now, finally, the structure is almost finished. Due to the predetermined guidelines for the honey production, the building turned out bigger than expected. It will be possible to accommodate between 500 – 2,000 beehives!

Once again, Mrs. Steiner, we would like to thank you for your touching spontaneity during the 2014 NfH-event and Mr. Jakobs and the executives for their donations to this project which will benefit both the Guarani Indians in Argentina, who are discriminated against and threatened with extinction, and the Colonos (descendants of Germans who emigrated about 100 years ago to Misiones) and who are living on the breadline.

The Colonos and the Guarani Indians will work together on this project. The beehives will be set up in the Guarani villages and will be controlled and looked after by the Guaranis. In this way, the Guarani-Hilfe.V. and Networker for Humanity will provide work for the natives. It enables the Indians to remain in their villages, which is better for them.

With warm regards from Saarbrücken  
Hiltrud and Herbert Hartmann
